

Fuuse

Payments Finance Manager

Job overview

£45k

Based in Lancaster, Fuuse has rapidly established itself as one of the market leaders in the EV charging software industry. Powering electric vehicle charge points Fuuse is at the heart of one of the world's biggest emerging industries by powering the electrification journey with all the environmental and societal benefits it brings.

Working with a diverse mix of over 300 end clients including SSE, Scottish Power, Arnold Clark, BCA, Bentley, Toyota, Suez and Veolia, Fuuse is enabling the monitoring, maintenance, payments, energy optimisation, and controlling access to their charging infrastructure, which in turn powers over 100,000 vehicles who interact with our platform every month.

Together we process enough electricity to power the whole of the UK for an hour, and this is doubling every three months and payment processing exceeds £6 million a year.

Beginning as a team of four working on an Innovate UK grant during Covid we're now 65 highly-motivated and expert staff based across the UK and Ireland. In 2023 we grew by over 300% and aim to do the same again for the next few years.

This hyper-growth has attracted significant investor interest, and we recently closed a Series A round raising £8.7 million from YFM Equity Partners and our long-term backers Par Equity, which will power our path to profitability.

Our exciting journey comes with its challenges and its rewards. Every member of our team has share options and everyone can benefit from a rapidly changing workplace where opportunity, challenge and enjoyment are there at every turn.
